

Luxurious villa with panoramic views

Property no. **2593**

LOCATION

This beautiful property with panoramic views is located on an approx. 4.118 m² large, south-facing property in a wonderfully quiet residential area of Gießhübl.

On the ground floor, the glazed main entrance leads to an almost circular entrance. The path to the staircase leads through a hall from which all other rooms located on this level can be reached, such as fitness room with shower room, staff room with shower room and toilet, separate toilet, wellness room for sauna, as well as housekeeping and technical rooms and a shelter room (ideally suited as a wine cellar).

The 1st floor impresses with its spaciousness and elegance! There are two elegant, large living rooms, one with an open fireplace, and several exits to the south terrace, which guarantees absolute privacy due to the appealing architecture of the house. The high-quality kitchen with Miele appliances and granite stone worktop offers plenty of space for preparing multi-course menus. A stylish guest toilet and a storage room can also be found on this level.

The private area of the bedrooms is pleasantly located on the next floor. The 2nd floor consists half of the master bedroom with round lounge area and exit to a beautiful south-facing terrace with panoramic views, a luxurious bathroom with freestanding bathtub, double vanity, WC and a spacious walk-in shower with an impressive blue marble wall. A separate room for your wardrobe completes the sophisticated offer. Two further bedrooms, one with exit to the terrace, and another stylish bathroom occupy the space of the other half of this floor.

Young people or guests will like to retire to the attic, which with 2 bedrooms (or a home office), two chic, fully equipped bathrooms and another separate toilet, as well as the terrace with great distant views satisfies all needs.

The technical equipment of this unique villa leaves nothing to be desired: the Smart Home

technology controls heating, air conditioning, alarm system with video surveillance, shading, lighting, curtains, etc.

CAT 7 computer cable system & WLAN and SAT-TV for ASTRA & HOTBIRD guarantee fast internet and enjoyable media consumption. A video intercom is just as obvious as the automatic garden irrigation, the water softening system, the air heat pump for heating and cooling, the underfloor heating, or the radio-controlled garage door.
